

KLEAN-GUROO
by Mity-Lite, Orem, Utah

The Klean-Guroo is manufactured by Mity-Lite for InHomeVations, LLC, located in Salt Lake City Utah. InHomeVations was founded by Don Aslett and Sandra Phillips in 2001. The Klean-Guroo is truly the world's first mobile cleaning closet for the home or office. Invented by a mother of 8, Klean-Guroo carts have been engineered to solve the age-old question... "Where do I put all my cleaning supplies?" It holds and transports all the cleaning tools and cleaners you need to virtually every cleaning task. It's lightweight, weighing approximately 13 lbs., and doesn't take up much more space than a traditional vacuum. Like all Kangaroos, it carries with it what's most important (capable of holding up to 30 cleaning products that are simple to retrieve and replace). Made from durable polyethylene, the cart also features heavy duty wheels and a swivel caster, perfect for moving around the home or small office. More information about this product can be found at www.klean-guroo.com.

MOLD IN GRAPHIC SYSTEMS® INTRODUCES NEW PERMANENT NYLON GRAPHIC

CLARKDALE, AZ • USA - Mold In Graphic Systems®, the world's leading manufacturer of permanent graphics and enhancement products for polyolefin plastic products, introduced a new permanent graphic, which is compatible with nylon resins, in Chicago at the ARM International Fall Meeting.

The graphic application was demonstrated via DVD at Mold In Graphic Systems® booth at Rotoplas™ '05, a trade show held by the Association of Rotational Molders (ARM) International.

The new Mold In Graphic Systems® Nylon Graphic is applied and positioned in a mold using a special Vinyl adhesive. Graphics become permanently fused directly into a nylon part during the rotational molding process. The new Nylon Graphics have been successfully molded into Nylon 11 and 12 in addition, experiments using Nylon 6 are being performed.

Potential uses for Mold In Graphic Systems® Nylon Graphics include: high heat applications, automotive, marine, airline and heavy duty truck equipment.

"The new Nylon Graphics are easy to apply. There is no other permanent labeling system out there for rotomolded Nylon," said Scott Saxman, senior vice president of sales, Mold In Graphic Systems®. "Brand recognition is everything, so innovative, quality new graphics and products are crucial to our customers' success."

For more information, contact Mold In Graphic Systems®, P.O. Box 1650, Clarkdale, AZ 86324, telephone 928.634.8838, Fax 928.634.9036, or go to the website at www.moldinggraphics.com.
